

i am an otr truck driver who depends on xm radio for weather,traffic,and storm updates.this is a valuable public service.several times it has allowed me to adjust my route to avoid storms,storm damaged areas,or traffic jams due to accidents.without the xm alerts another 75 ft.of steel and metal would have been added to an already congested situation.y'all should be ashamed,for letting ignorant lobbyists influence your thinking or decisions on this matter.for that matter,i PAY for xm service.it is a private co.,supported by it's listeners.we should be the ones who decide what we hear or don't hear.bear19592004
